

March 23, 2022

Dear Governor Kemp,

The Atlanta Volunteers would like to request your leadership for a Peace Officers Day event on Sunday May 15, 2022 from 10:00 am to 11:15 am at Mary Alice Park, Cumming GA 30041.

Mayor Troy Brumbalow will be presenting giant "Thank You" cards signed by the community to Peace Officer representatives. Mayor Brumbalow will also be saying a few words on behalf of the community to thank Peace Officers who serve our community.

We would like you, or one of your representatives to consider presenting a giant "Thank You" card signed by Georgia citizens and say a few words to thank all of Georgia's Peace Officers on behalf of all of Georgia.

We would also like to request your help to put the Atlanta Volunteers in contact with community relations representatives from Peace Officer departments all across Georgia. The purpose is to recognize Peace Officers whose watch has ended in 2021, Peace Officers who have gone above and beyond the call of duty and Peace Officers for any other reason that deserve recognition.

We have an additional request. This is for help with organizing this event for a sound system, honor guard, representatives from all different types of Peace Officers, their equipment, services and stories. This event is designed to be a free community picnic, with apple pie, hot dog and baseball contests on the shore of Lake Lanier in view of a giant floating flag and boat parade.

This pirate themed event has public education called "Mutiny Against Crime". This is designed to bring awareness to online scams and deceitful advertising. We use a "Catfishing Tournament" run by lying, cheating pirates to judge apple pie, hot dog and baseball contests. Apple pie and hot dogs are served freely to anyone and 500 beachballs are provided for "baseball" contests and to throw up in the air after "three cheers" for Peace Officers.

Featured software for this event

The Atlanta Volunteers has developed unique software for nonprofits. When people at an event choose to publicly livestream the event, people online can see a list of people who are publicly livestreaming. If 100 people livestream, an online viewer can jump from stream to stream getting the results they want. Links to livestreamed content are available as a public domain library, so that people can crowd source media productions. They can edit, add sound effects, special effects and work and share together to build on other peoples creations. A huge library of public domain video to show Peace Officer Support will produce impressive results on close to a zero budget.

We hope to produce some amazing media productions to support Peace Officers, First Responders & Veterans!

<https://piratedivebar.com> contains the details of the event, boat parade, contests and more.

Cheers!

Alan Kindree
