Re: **Birthday Invite July 4, 2026**

Dear Congressman McCormick,

Forsyth Area Sports Teams, a nonprofit better known as the Atlanta Volunteers is asking for your help to craft a proposal for funding before the March deadline. Think of this proposal as a 250th birthday gift for the USA.

I own two uniquely zoned properties on Lake Lanier. Development for a vocational group home for special populations is underway. I hope to someday donate these two properties to continue our mission into perpetuity. I am asking for your help to find an exceptional board of directors, cut red tape and open doors so that our funding request for July 4, 2026 has success. Would you consider being the chairman or making a nomination?

Think of different layers for google maps. The Atlanta Volunteers has created a new layer for google maps. This new layer will be used for our celebration as a nation on July 4, 2026. We know what a state fair is and a worlds fair, but what about a nation's fair? Happening in back yards, streets, parks and more this google map layer unites the nation by listing the smallest event to the largest event. It lets anybody find or create a celebration where they live. The best event is within walking distance by looking at the map and seeing what your friends and neighbors are doing. Everybody united in celebration.

We have recently heard of NGO's that are partisan, support terrorism, anti American ideas and waste taxpayer dollars. This proposal is the opposite. We hope to produce an amazing example of what patriotic nonprofits can be. With your help to provide best practices and oversight we should result in a nonprofit giving donations back to the treasury, but more than that, good cheer and good deeds that help the least of us. We have produced a 20 minute mission video <https://piratedivebar.com/todo> and our about page <https://piratedivebar.com/about>.

George Washington had over 2,000 pirates under his command. Outgunned, outnumbered eating rotten food in miserable conditions, patriotic pirates who brought back many tons of munitions and supplies to the colonists were known as the most joyful people! The most celebrated pirate crew were the artists of song and dance that shared joy with the crew. Without the help of patriotic pirates, we may have never won freedom for the colonists to form the USA. Pirates such as John Paul Jones became the father of the US Navy, Blackbeard was given an island off the coast of Georgia, Captain Morgan, Captain Anne Bonny and many other patriotic pirates are still celebrated today. Our patriotic pirates turn special heroes born with the super powers of Down syndrome, spina bifida, autism or other super powers into Super Heroes to win their freedom. Good cheer makes good deeds.

Can you assign a POC so that a "showcase" proposal can be developed before your funding deadline?

Cheers!

Alan Kindree CEO
